

# COMBINED VS COLLECTIVE

COMPARING THE 2 TYPES OF MANAGEMENT OF COMMUNITY GARDENS

Parcels/plots Rented by an individual or a family and collective plot

Individual harvest

Members are responsible for their plot & possibility to join collective plot management

Waiting list for private plots 

Individual costs and effort depending on plot size and vision

Garden maintained by the people of a whole community

Collective and more diverse harvest

Shared responsibility

members are welcome anytime 

Commonly used tools/infrastructure, seeds

Shared costs and dedication to maintenance and management
